MINDFUL DESIGN ENTRYWAY FENG SHUI

To invite positive energy & success into your home

GREET THE ENERGY

Invite energy in with design elements that will 'kiss' the qi. You can use one or more (within reason): welcome mat, seasonal planters, outdoor porch light and the color red!

EXPAND THE ENERGY

Some entryways and foyers can be a little cramped; expanding the space will allow the energy to flow better. The best option is to hang a mirror. You can also use art with depth, bright lighting, and a feng shui crystal.

SETTLE THE ENERGY

Once the energy enters the space it is important to have it settle, and stay in your home. Think of it as a new visitor, make the qi feel at comfortable. Adding a small rug is a good start, if you have the room, simple seating like a bench will help the energy to land and settle.

DESIGN WITH INTENTION

You don't need to add a lot of design elements to be effective. By adding one key element, like a welcome mat or planter with intention, you can attract and shift the energy in your home.

ADD ABUNDANCE

Adding symbols of prosperity and abundance will set the tone for the home. You can shift the incoming energy by using higher vibe items such as crystals and Buddhas. A bowl of nine oranges is a symbol of prosperity that you can place just inside the front entrance.
